Retirement Center

Recovery

After a hospital stay, **respite can be a helpful stepping-stone between the hospital and living at home independently.** If you feel you are not quite ready to return home, our specially trained staff will provide compassionate care in a supportive environment and personalized assistance during your recuperation. You can also continue to benefit from physical therapy during your stay.

Caregivers

If you are a caregiver, we understand that you have a tough job and need time to relax, unwind, go on vacation or simply get a few projects done.

Respite care or short-term stays offer the perfect solution by providing customized care to your loved one on a temporary basis.

Considering A Move

If you are considering a move to a senior living community, **a short-term stay gives you a great opportunity to give Delta Retirement and Bedford Care a trial run.** You will have the ability to experience first-hand the benefits of living in our community while making sure we are well suited to your needs.

Our short term and respite stay residents enjoy all of the same services, amenities and care that our full-time residents receive.

Cable and phone services

Qualified, caring staff available 24/7 RN on staff

Free transportation to and from medical appointments, shopping and outings

Three nutritious, taste-tempting meals served restaurant style

Fully planned and staffed activities program
Utilities included (heat, electricity, water)

Weekly housekeeping with flat linen service
Beauty/barber shop on site

Coordination with visiting therapists and other medical professionals

Whether you need a short-term stay while recovering from an illness, you are a caregiver in need of assistance with a loved one or you simply choose to live with us, we are here to help. Delta Retirement and Bedford Care will provide experienced respite care with the amenities of home.
